

## Family Medicine Longitudinal Selective Evaluation

SNSH 1607

Name: [REDACTED] Selective: Chronic Disease Management  
Group/Block: Family/Surgery Graduation Year: 2014 Date: 10/11/12

This departmental survey is designed to understand your thoughts about this Selective so that we can improve it through our Pre-Doctoral Training in Primary Care grant. When answering this survey, please only think about the effect of this Selective on your opinions. Your comments are confidential and will not affect your grade.

1. What was the one thing you liked the most about this Family Medicine Longitudinal Selective (FMLS)?

Working with the same preceptor every week (Dr. Molokwu), and getting to have one on one time with a clinician who sat down and answered specific questions I had about the disease processes and being able to learn in the context of an actual patient encounter.

2. How would you improve this FMLS?

It was not very organized in the beginning, and a lot of us did not know what was expected of us.

3. Would you recommend this FMLS to other fellow students?

**1- Yes**

**2- No**

4. What was the most important piece of knowledge you learned from this FMLS?

Difficult to say, but probably management and follow-up/diagnosis criteria for DM2.

5. How has this FMLS affected the likelihood of you choosing Family Medicine as a career?

**1 – Increased the likelihood**

6. How has this FMLS affected the likelihood of you choosing primary care as a career?

**1 – Increased the likelihood**

7. List your top 3 career choices (Primary care and/or Specialty) at this time:

**1-Pediatrics**

**2 - Psychiatry**

**3 – Emergency Medicine**

Family Medicine Longitudinal Selective Evaluation

GRADE 1112

Name: [REDACTED] Selective: CHRONIC DISEASE MANAGEMENT  
 Group/Block: Block 1 Graduation Year: 2014 Date: 10/10/12

This departmental survey is designed to understand your thoughts about this Selective so that we can improve it through our Pre-Doctoral Training in Primary Care grant. When answering this survey, please only think about the effect of this Selective on your opinions. Your comments are confidential and will not affect your grade.

1. What was the one thing you liked the most about this Family Medicine Longitudinal Selective (FMLS)?

GO T TO GO TO A PATIENTS HO USE AND INTERVIEW THEM ON HOW THEIR CHRONIC DISEASE(S) IMPACTED THEIR LIFESTYLE

2. How would you improve this FMLS?

N/A

3. Would you recommend this FMLS to other fellow students?

1 - Yes

2 - No

4. What was the most important piece of knowledge you learned from this FMLS?

YOU NEED TO INTBGRATE MULTIPLE ASPECTS OF HEALTH CARE INCLUDING SOCIAL WORKERS, PHARMACISTS, HOME HEALTH STAFF, PHYSICIANS, NURSES, ETC. TO PROVIDE THE MOST EFFECIENT & BEST QUALITY OF CARE FOR A PATIENT

5. How has this FMLS affected the likelihood of you choosing Family Medicine as a career?

1 - Increased the likelihood

2 - No Effect

3 - Decreased the likelihood

6. How has this FMLS affected the likelihood of you choosing primary care as a career?

1 - Increased the likelihood

2 - No Effect

3 - Decreased the likelihood

7. List your top 3 career choices (Primary care and/or Specialty) at this time:

- 1- PEDIATRICS
- 2- IM-CARDIOLOGY
- 3- FAM MED w/ INTERNATIONAL EMPHASIS

Family Medicine Longitudinal Selective Evaluation

120 FD

FEBRU 2014

11:30am meeting

Name: [REDACTED]

Selective: Chronic Disease Management

Group/Block: 2

Graduation Year: 2014

Date: 02/15/13

This departmental survey is designed to understand your thoughts about this Selective so that we can improve it through our Pre-Doctoral Training in Primary Care grant. When answering this survey, please only think about the effect of this Selective on your opinions. Your comments are confidential and will not affect your grade.

1. What was the one thing you liked the most about this Family Medicine Longitudinal Selective (FMLS)?

I feel like this was really helpful for my future 4<sup>th</sup> year rotations in family medicine and in preparation for residency because it covered many topics seen in the clinic but in a lot more detail.

2. How would you improve this FMLS?

There was not always a patient scheduled who had the particular problem I had studied for the past week. It may be difficult to do, but maybe see what types of patients are scheduled among the residents and other attending physicians and let the student see that one patient. The rest of the time can be spent with the assigned physician discussing the management and seeing other patients.

3. Would you recommend this FMLS to other fellow students? 1-Yes

1- Yes

2 - No

4. What was the most important piece of knowledge you learned from this FMLS?

How to research recommended guidelines and treatments for a variety of conditions and how to approach each patient.

5. How has this FMLS affected the likelihood of you choosing Family Medicine as a career? 1

1 – Increased the likelihood

2 – No Effect

3 – Decreased the likelihood

6. How has this FMLS affected the likelihood of you choosing primary care as a career? 1

1 – Increased the likelihood

2 – No Effect

3 – Decreased the likelihood

7. List your top 3 career choices (Primary care and/or Specialty) at this time:

1-Family Medicine – Sports medicine sub specialty

I have no other choices. I have wanted to do family medicine and sports medicine for many years and that is what I will be doing.

2 - \_\_\_\_\_

3 - \_\_\_\_\_
